HOW TO START
A COOL TREND
BY TRENDSETTER1234
UMMM,
NO

I'm going to show you how to bring your idea to life—it's easier than you think!

Transform your stuffed animal keychains into unique earrings.

Be the first to say, "No more holes in my jeans, please."

Visit the website of a brand you love and share your idea for a new flavor or toy with the company.

High-fashion thrift stores often carry designer items, and who cares if they’re fake? Flaunt them confidently, turn your hallway into your runway, and leave everyone jealous of your style.

Don't follow the trend; start the trend.

Discover something you enjoy that no one else appreciates.

Write down all the ideas you want to make a reality someday.

Don't let anyone take your happiness away.

Social media is a waste of time; make friends in person instead.

Who cares what people think of you? Only care about what you think.

Show off your awesome style, even when you're just at the store.

Leave your phone at home when you go out to the store and take a moment to notice what's around you.

Grab designer frames from a thrift store and have lenses put in at your next eye exam.

Be friendly to everyone; a little kindness can go a long way.

Tidy up your room
and give it a makeover.

Be considerate to others by letting go first and holding the door open for them.

Rudeness causes trouble and spoils both your day and the other person's.

You do these things to make trends work.

Apply this and every tip in the book, and you'll be a trendsetter in no time flat.
